

WASBOTTLE:

**BENCORE'S NEW 100%
RECYCLED AND RECYCLABLE
MATERIAL DESIGNED IN
PARTNERSHIP WITH**

RECOLLECTION, RECYCLING, REUSE:

BENCORE CIRCULAR ECONOMY FOR AN ECO-SUSTAINABLE PRODUCT EVERY DAY

WASBOTTLE PROJECT

The Wasbottle material comes from **recycled and recyclable plastic flakes** and represents for Bencore a decisive step in gradually becoming a key player for circular economy and sustainability in the world of architecture and design.

The project came to life in collaboration with **Autogrill** for the recycling and reuse of their dismissed plastics.

WASBOTTLE PROPERTIES

Compactness and workability

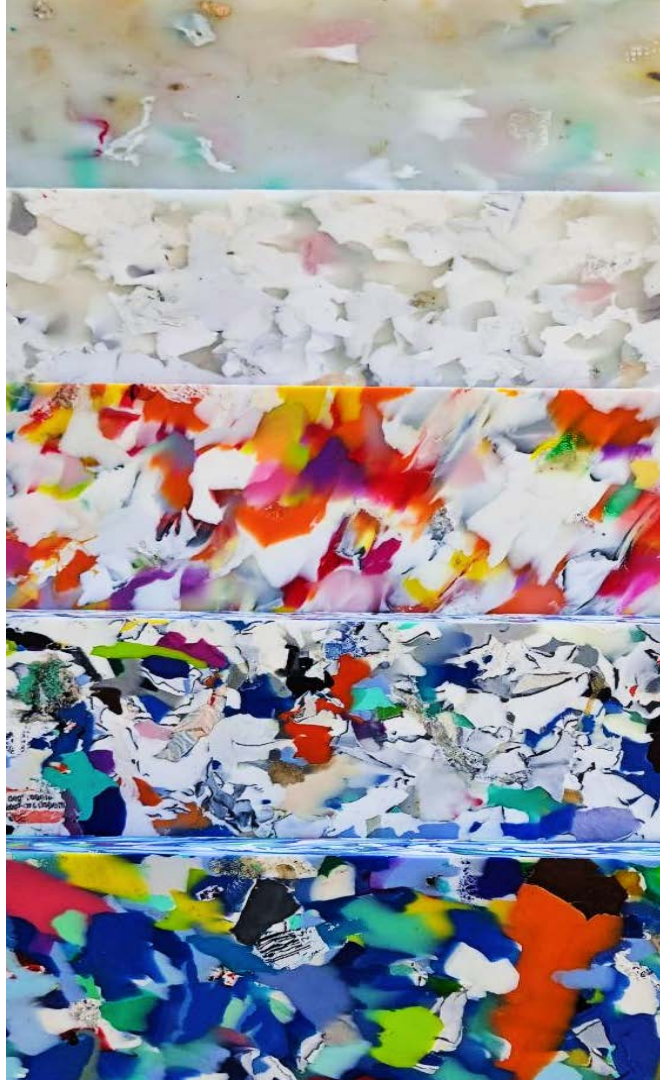

Low friction coefficient

Non-igroscopicity

High resistance to chemical agents

Good impact resistance

Wide use in furniture components

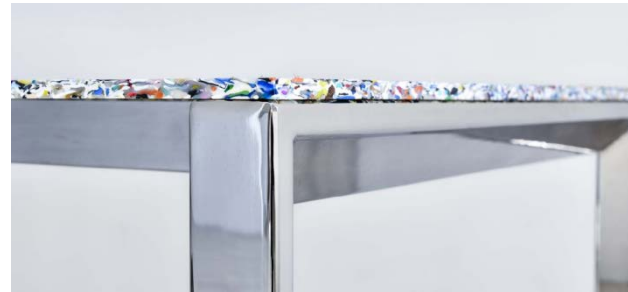

WASBOTTLE APPLICATIONS

Wasbottle can be milled, drilled and then accessorized and also finished with screwed components and, in the thickness of 20 mm, can also be inserted in the profiles of the Bencore doors/walls Collection.

It is designed for the realization of table tops, shelves, partition elements and opaque coverings for **architecture and interior design.**

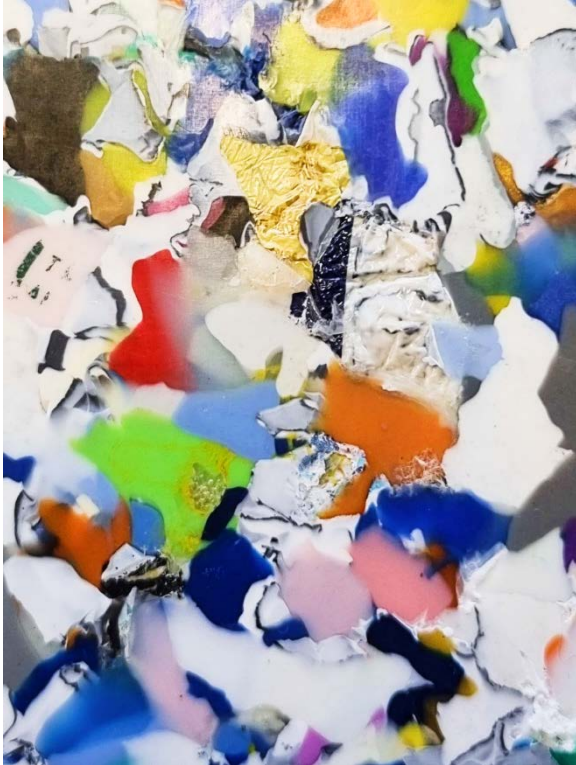

The panels are made in **thicknesses** of 8, 12 and 20 mm.

Each panel comes in **two standard dimensions:**
1200x1200mm or 1000x2000mm.

WASBOTTLE VARIANTS Pt.1

STANDARD PRODUCTION

Wasbottle – PAINT, 100% recycled and recyclable HDPE.

“Paint” to recall the typical texture of the painting techniques of dripping/ pointillism. A tribute to contemporary art, such as the one by Pollock and Kandinsky.

WASBOTTLE VARIANTS Pt.2

“ONE-OFF” PRODUCTION: LIMITED EDITION

Wasbottle One-Off: WHITE

100% recycled and recyclable HDPE.

Wasbottle One-Off: OPAL

100% recycled and recyclable HDPE.

WASBOTTLE VARIANTS Pt.2

“ONE-OFF” PRODUCTION: LIMITED EDITION

Wasbottle One-Off: RED

100% recycled and recyclable HDPE.

Wasbottle One-Off: BLUE

100% recycled and recyclable HDPE.
